AMENDMENT

SIR:

In response to the Final Office Action dated January 2, 2003, please amend the  
above-referenced application as set forth below.

IN THE CLAIMS:

1. (Twice Amended) A method for determining and outputting travel instructions for  
a travel route from a starting point to a destination, comprising:

connecting an arithmetic unit, at least temporarily, with a central station remotely  
located with respect to the arithmetic unit;

transmitting the starting point and the destination to the central station;

determining the travel route by the central station;

determining a sequence of the travel instructions by the central station from the travel  
route;

transmitting the sequence of the travel instructions from the central station to the  
arithmetic unit;

storing the sequence of the travel instructions in the arithmetic unit, and
